CCINLP 2019

Special Session on Computational Collective Intelligence and Natural Language Processing

at the 11th International Conference on Computational Collective Intelligence (ICCCI 2019)

Hendaye, France, September 4-6, 2019

Conference website: http://iccci.sigappfr.org/

Special Session Organizers

Prof. Ismaïl Biskri
Department of Mathematics and Computer Science
University of Québec à Trois-Rivières, Canada
E-mail: ismail.biskri@uqtr.ca

Dr. Adel Jebali
Études françaises Department
Concordia University, Canada
E-mail: adel.jebali@concordia.ca

Objectives and topics

Today, people working in Natural Language Processing domain are often members of interdisciplinary teams, including computer scientists, experts in artificial intelligence, mathematicians, statisticians, logicians, linguists, philosophers, cognitive scientists, cognitive psychologists, psycholinguists, anthropologists and neuroscientists, among others. Natural Language Processing is not just a subfield of computer science, information engineering, and artificial intelligence. It is, also, connected to cognitive sciences through the development of cognitive theories.

We can see Natural Language Processing divided into two parts: (1) its theoretical descriptions ; (2) its concrete implementations. The theoretical aspect includes philosophical hypothesis, psychological hypothesis, linguistics methods as semantics, syntax, morphology, etc., or numerical methods as classification, neural networks, Naive Bayes, deep learning, etc. At the present stage of research, there still a gap between theoretical approaches and computer implementations. There are many computer applications without any solid theoretical foundations, and there are many theoretical methods with no computer implementation. Theoretical Methods and computational implementations for the Natural Language Processing must take into account this epistemological chain for to lead to effective, robust and reliable systems.

Papers and contributions are encouraged for any work relating to Natural Language Processing. Topics of interest may include (but are in no way limited to):

- Philosophy of language – new developments,
- Cognitive semantics,
- Logics of language,
- Language modeling,
- Computational linguistics (lexicology; morphology; syntax; semantics),
- Information extraction,
- Domain ontologies, linguistic ontologies,
- Knowledge processing,
- Translation,
- Text-mining.
- Deep-Learning.
- etc.

Important dates

Submission of papers: **April 15, 2019 (Extended-Strict)**
Notification of acceptance: **May 20, 2019**
Camera-ready papers: **June 1, 2019**
Registration & payment: **June 1, 2019**
Conference date: **September 4-6, 2019**

Program Committee (to be invited)

Ismaïl Biskri, Université du Québec à Trois-Rivières, Trois-Rivières, Canada
Mounir Zrigui, Université de Monastir, Monastir, Tunisia
Anca Pascu, Université de Bretagne Occidentale, Brest, France
Éric Poirier, Université du Québec à Trois-Rivières, Trois-Rivières, Canada
Fatiha Sadat, Université du Québec à Montréal, Montréal, Canada
Adel Jebali, Concordia University, Montréal, Canada
Eva Hajiova, Charles University, Prague, Czech Republic
Khaled Shaalan, Brithish University, Dubai, United Arab Emirates
Vladislav Kubon, Charles University, Prague, Czech Republic
Louis Rompré, Cascades, Kingsey-Falls, Canada
Rim Faiz, IHEC, Carthage, Tunisia

Submission

All contributions should be original and not published elsewhere or intended to be published during the review period. Authors are invited to submit their papers electronically in pdf format, through EasyChair. All the special sessions are centralized as tracks in the same conference management system as the regular papers. Therefore, to submit a paper please activate the following link and select the track: ***CCINLP 2019: Special Session on Computational Collective Intelligence and Natural Language Processing.***

https://easychair.org/conferences/?conf=iccci2019

Authors are invited to submit original previously unpublished research papers written in English, of up to 12 pages, strictly following the LNCS/LNAI format guidelines. Authors can download the Latex (recommended) or Word templates available at Springer's web site. Submissions not following the format guidelines will be rejected without review. To ensure high quality, all papers will be thoroughly reviewed by the ***CCINLP 2019 Program Committee***. All accepted papers must be presented by one of the authors who must register for the conference and pay the fee. The conference proceedings will be published by Springer in the prestigious series LNCS/LNAI (indexed by ISI CPCI-S, included in ISI Web of Science, EI, ACM Digital Library, dblp, Google Scholar, Scopus, etc.).
